

ABSTRAK

Halawa, Cindi Puspita. 2025. *Penerapan Model Pembelajaran Cooperative Script Untuk Meningkatkan Hasil Belajar Peserta Didik Kelas VIII SMP Negeri 1 Huruna*. Skripsi. Pembimbing: Drs. Desman Telaumbanua, M.Pd.

Penelitian ini dilatarbelakangi oleh rendahnya hasil belajar peserta didik pada mata pelajaran IPA dan pelaksanaan kegiatan proses pembelajaran masih berpusat kepada guru. Solusi dalam mengatasi permasalahan tersebut melalui penerapan model pembelajaran *Cooperative Script*. Model pembelajaran *Cooperative Script* merupakan salah satu model pembelajaran yang sangat efektif melatih peserta didik belajar berdiskusi mengintisarikan materi pelajaran bersama dengan teman pasangannya. Tujuan penelitian ini yaitu: (1) Mengetahui proses pelaksanaan kegiatan pembelajaran melalui penerapan model pembelajaran *Cooperative Script*. (2) Mengetahui apakah penerapan model pembelajaran *Cooperative Script* dapat meningkatkan hasil belajar peserta didik pada mata pelajaran IPA. Lokasi penelitian di SMP Negeri 1 Huruna. Subjek penelitian adalah peserta didik kelas VIII dengan jumlah 26 orang. Waktu pelaksanaan penelitian yaitu di semester Genap pada Tahun Pelajaran 2024/2025. Jenis penelitian yang digunakan adalah Penelitian Tindakan Kelas (*Classroom Action Research*) yang terdiri dari 4 tahap yaitu: (1) Perencanaan, (2) Tindakan, (3) Observasi, dan (4) Refleksi. Instrumen penelitian yang digunakan yaitu: (1) Lembar observasi kegiatan pembelajaran (responden guru), (2) Lembar observasi peserta didik yang terlibat aktif, (3) Tes hasil belajar. Hasil penelitian: (1) Proses pelaksanaan kegiatan pembelajaran melalui penerapan model pembelajaran *Cooperative Script* di SMP Negeri 1 Huruna diperoleh rata-rata hasil rekapitulasi refleksi Siklus I yaitu 59,22% dengan kriteria kurang dan rata-rata hasil rekapitulasi refleksi Siklus II yaitu 86,42% dengan kriteria baik, (2) Hasil belajar peserta didik melalui penerapan model pembelajaran *Cooperative Script* di SMP Negeri 1 Huruna diperoleh nilai rata-rata hasil belajar pada Siklus I yaitu 59,81 dengan kriteria kurang dan nilai rata-rata hasil belajar pada Siklus II yaitu 82,69 dengan kriteria baik. Berdasarkan hasil penelitian, dapat disimpulkan bahwa melalui penerapan model pembelajaran *Cooperative Script* mampu meningkatkan hasil belajar peserta didik.

ABSTRACT

Halawa, Cindi Puspita. 2025. *Implementation of Cooperative Script Learning Model to Improve Learning Outcomes of Class VIII Students of SMP Negeri 1 Huruna*. Thesis. Mentor: Drs. Desman Telaumbanua, M.Pd.

This research is motivated by the low learning outcomes of students in science subjects and the teacher-centered nature of the learning process. The solution to this problem is the implementation of the Cooperative Script learning model. The Cooperative Script learning model is a highly effective learning model that trains students to discuss and summarize lesson material together with their partners. The objectives of this research are: (1) Find out the process of implementing learning activities through the application of the Cooperative Script learning model. (2) Find out whether the application of the Cooperative Script learning model can improve student learning outcomes in science subjects. The location of the research is at SMP Negeri 1 Huruna. The subjects of the research were 26 class VIII students. The time of the research was in the Even Semester in the 2024/2025 Academic Year. The type of research used is Classroom Action Research which consists of 4 stages, namely: (1) Planning, (2) Action, (3) Observation, and (4) Reflection. The research instruments used are: (1) Observation sheet for learning activities (teacher respondents), (2) Observation sheet for students who are actively involved, (3) Learning outcome test. Research results: (1) The process of implementing learning activities through the application of the Cooperative Script learning model at SMP Negeri 1 Huruna obtained an average recapitulation result of Cycle I reflection of 59,22% with the criteria of less and an average recapitulation result of Cycle II reflection of 86,42% with the criteria of good, (2) The learning outcomes of students through the application of the Cooperative Script learning model at SMP Negeri 1 Huruna obtained an average value of learning outcomes in Cycle I of 59,81 with the criteria of less and an average value of learning outcomes in Cycle II of 82,69 with the criteria of good. Based on the research results, it can be concluded that through the application of the Cooperative Script learning model, it can improve student learning outcomes.
